

CCP PROJECT

PROJECT IDEA: BANKING SYSTEM WITH ATM.

Key Features:

- *) User can create their account and set his password to used ATM
- *) User can used ATM with Both Debit and Credit Card.
- *) User can avail All features Like Deposit, WithDrawl, Check Balance, etc.
- *) User can Get a slip after its Transcation if it required.
- *) If user want a slip so the Fees deducts from its balance.
- *) We also apply a Safety Checker in which if the user enter the password in the Reverse order then it card blocks and no payment Proceeds.
